43 lbs. (19.5 kg)

IMAX[®]

Powerful Images. Powerful Insight.™

IMAX cameras are versatile. They've endured the heat of the oil fires of Kuwait, been strapped to the tail of a Lockheed L-1011 in flight and performed flawlessly two-and-a-half miles beneath the ocean. For each special situation, whether it be shooting underwater, climbing to the top the world's highest mountain or filming in space, IMAX designers and engineers have come up with innovative solutions capturing some of the most spectacular images the world has ever seen.

TRAINING AND SUPPORT PROGRAM

IMAX's camera rental and film production teams support filmmakers from initial concept to final product with operator training at our technology center near Toronto, a filmmakers' manual, the development of special camera accessories, a 24/7 emergency hotline and available field support.

MSM CAMERA LENSES and ACCESSORIES
